

Streamline Your Supply Chain

Powerful 3PL Software Meets Smart Inventory Management

Better Together

Levata and Camelot offer organizations an effective combination of barcode scanning hardware and warehouse management software solutions to manage receiving, shipping, inventory management, and picking for 3PLs. Together, we'll ensure you get the most value for your bottom line and for your customers.

Camelot: Excalibur® WMS

- Complete Warehouse Management Solution especially for third-party logistics operations.
- eCommerce fulfillment solutions integrate shopping carts for rapid order processing, plus backorder and return processing.
- Real-time inventory visibility for your customers.
- Business Intelligence: labor tracking, profit analysis, and custom reporting.
- Robust 3PL billing engine to capture revenue for all value-added activities.

Levata: Beyond the Hardware

- **Consultation:** Levata will recommend opportunities for technology transformation.
- **Project Activation:** Levata will provision, configure, deploy & integrate your tech.
- **Ongoing Help & Support:** Levata can manage all your tech so you harness the benefits.
- **Financing:** Levata offers payment plans to maximize your capital.

A Gold Certified Microsoft Partner that was founded in 1984, Camelot 3PL Software provides a suite of WMS applications built on the Dynamics 365 platform to offer management tools for a Public Warehouse, Fulfillment House, Freight Brokerage or Transportation Company. 3PL Software has been deployed in hundreds of 3PL facilities across the United States, Canada, Central America, and Europe.

Uniting Cutting-Edge Solutions

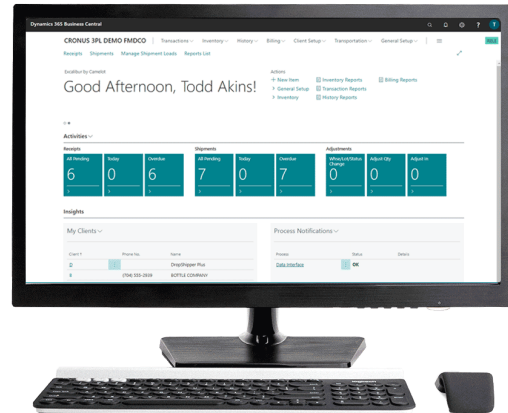

Levata World-Class Mobile Scanning Solutions

Levata is a leading solution provider of top-tier supply chain inventory tracking and mobile computing devices that enable optimal warehouse management operations. For Camelot customers, Levata sources premier Honeywell and Unitech mobile scanners, as well as Zebra label printers, that connect seamlessly to Camelot's warehouse management solutions. In addition, Levata offers TrueSupport with TrueView, a repair and support service with unique device visibility and reporting.

Excalibur WMS

Camelot's 3PL software, built on Microsoft Dynamics 365 Business Central, provides real-time inventory tracking with WebLink Essentials™, seamless shipping and receiving via EDI/API integration, and automated billing and invoicing. Its powerful reporting tool streamlines data analysis, while the intuitive, role-based interface ensures ease of use and efficiency.
